Learn the keys to success in your marriage with...

OUR REASON

You have likely heard about the current divorce statistics occurring in our country. The startling reality is this: nearly one out of every two marriages end in divorce. This means that between 40-50% of all marriages fail. In addition, most marriages that fail today, do so within the first seven years. Couples who divorce often go on to remarry and of this group, a staggering 60-70% also end in divorce.

INTRODUCTION

We're excited and honored that you are taking the time to learn more about our two-day, weekend program. The purpose of our retreats is to help couples identify the areas of strength and opportunities in their relationship so that they are not only well-prepared for the day they say their vows, but also everyday after their wedding. Couples can expect to laugh, have a great time, meet new friends, and intensely focus time and energy into learning more about each other, the realities of marriage, and how to be successful in it.

OUR MISSION

To help all couples have the relationship of their dreams by providing loving support, direction, and the resources they need by licensed professionals and experts in coaching and counseling.

It is very clear that people want to be married and desire a life companion. Yet, statistics reveal many of us are not very adept at the inner workings of marriage, and understanding how to meet our spouse's needs and our spouse meeting our needs. It is very easy to fall in love, but very challenging to stay committed to that love. Learning how to communicate needs, wants, and expectations, as well as responding to the needs, wants, and expectations of our spouse are all necessary skills for a successful marriage.

"Thank You! We really enjoyed the personal setting to the retreat. Being able to talk to my fiancé about important topics in a safe and secure place was wonderful. We felt very comfortable sharing our thoughts and we could talk things out without arguing."

"This has been a fantastic and enlightening experience for both of us. We weren't sure what to expect coming, but are so glad we did. We feel more prepared today than we ever have before to not only get married, but to have a successful and fulfilling marriage!"
